MY Smart Life Final Event
Scalable Cities community

Hamburg, 14 September 2022

Funded by the European Commission

What is Scalable Cities?

Scalable cities is a joint city-led initiative of the European Commission and smart city experts whose goal is to support the Smart Cities and Communities Project Cluster of projects with the aim to create an innovative, sustainable and citizen-led community of smart cities in Europe and beyond by networking and connecting all stakeholders and guide them towards Europe-wide replication, improving the overall performance, and contributing to the creation of a joint smart cities marketplace in Europe.
